DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-10, and 26-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1, 6, 26, and 31 contain the following language:

“executing in said terminal said data file transfer tasks over said air interface upon recognizing an electrical connection between said terminal and said charging device wherein said execution of said tasks in said terminal is postponed to a later point in time “.

It is not adequately disclosed and it is not clear how the data file transfer is both executed when an electrical connection is recognized between said terminal and said charging device and postponed to a later time at the same time.

Allowable Subject Matter

3. Claims 11-25 are allowed.
